

## 9.0.4 nS - New features

- [Print meter indicators](#)
- [Alpha channel to white layer option](#)
- [Export density values](#)

---

### Print meter indicators

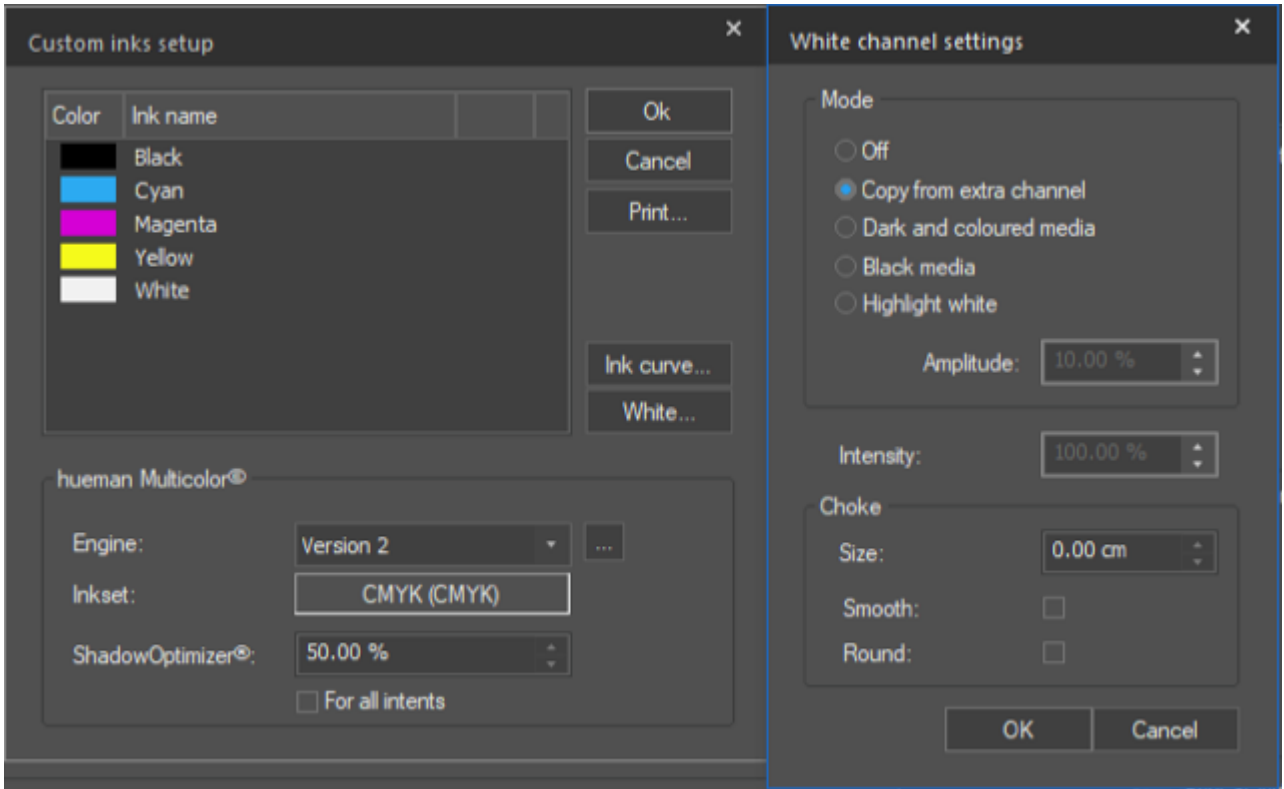

Printable ruler indicating the output length. The option is located in Control Bar printing at Control Center > Media Size > Advanced.

---

### Alpha channel to white layer option

New option that copies the alpha channel from image file to white layer ink option.

## Export density values

New export option for density values from Calibration Wizard for external usage.
