Release Features

General

New the option to create new folders in the folder selection dialog (mac & windows:

Enhancements

General

Improved support for macOS 10.12 and 10.3 operating systems.

nT Colorations

Added the shared library alert of the module to unlocking the color library.

nT Step&Repeat

- High precision rapport detection for non-fractional rapport drops.

Your browser does not support the HTML5 video element

- Possibility to disable auto-rapport detection in nT Rapport Monitor:
